

*The 'Journal of Minimum Intervention in Dentistry' is an international online journal, with the aim to promote the electronic publication and indexing of research articles in the field of Minimum Intervention (MI) in dentistry. The journal will publish clinical case reports in English on the MI topics of risk assessment, early diagnosis, minimally-invasive treatment of oral disease. Authors are cordially invited to submit their manuscripts via email to:*

*[midentistry@global.co.za](mailto:midentistry@global.co.za)*

*The journal wishes to encourage manuscript submissions by first time authors, aspiring young academics as well as the submission of to-date unpublished clinical observations, especially by general dental practitioners. This journal conducts peer-review to the extent of strict adherence by authors to the following criteria: The study being a clinical case report with direct MI relevance; stated reporting guidelines; acceptable scientific grammar and syntax as well as proof of ethical clearance. For further information regarding the preparation and submission of manuscripts please visit: <http://www.midentistry.com/journal.html>*
